0.1 Physics 1st Period

Book: Essential University Physics, Volume 1, 2nd Edition; Richard Wolfson, PEARSON.

Contents: Basics of Physics, Mechanics, Chapters 1-3 from Wolfson

Flipped Classroom implementation. The lecture notes and video lectures are in OMA. The exercises are in OMA. The solutions you can submit to OMA or you can submit a paper version during the classes. During the classes there will be only a brief lecture (about 60 % of the whole lecture). You also get a help to solve the weekly exercises and to understand the theory. But the whole lectures are only on the You Tube videos.

Assessment: From the weekly exercises you can get the grade 1-2. The Python exercises (with Sakari Lukkarinen) includes to this part. All exercises will be in Documents –> Exercises. The weekly exercises (which you submit) will be in Assignments (they are picked from all exercises). The grading scale:

55 % of weekly exercises –> the grade 1

80 % of weekly exercises –> the grade 2

There will be a final exam where you can improve your grade. If you are happy with your grade from weekly exercises, then you don't have to come to the exam.

50 % of maximum points from the final exam improves your grade by 1 step

70 % of maximum points from the final exam improves your grade by 2 steps

85 % of maximum points from the final exam improves your grade by 3 steps
